KAISTEEL Global Sample Equipment Credit Policy

全球样机设备款抵扣政策

KS-02-C | v1.1 8 November 2026

Customer edition. Policy commences on 11 November 2026 at 00:00 HKT (UTC+8).

客户版。政策将于 2026 年 11 月 11 日香港时间（HKT，UTC+8）00:00 启用。

This policy sets out eligibility, calculation and payment conditions for KAISTEEL sample equipment credit. It provides a deduction for ONE equipment unit, subject to the applicable payable balance. English prevails.

本政策规定 KAISTEEL 样机设备款抵扣的资格、计算及付款条件。抵扣仅取一台设备价值，并以适用应付尾款为限。中英文如有不一致，以英文为准。

1 Global eligibility 全球适用资格

The policy applies to registered business entities (companies) worldwide. Sample pro forma invoices (PIs) and credit are issued only to registered companies. There are no eligibility restrictions based on product model, equipment value or intended use.

本政策适用于全球注册商业主体（公司）。样机形式发票（PI）及抵扣仅向注册公司签发，不设产品型号、设备款金额或用途资格限制。

A brand or group is eligible for sample equipment credit only once globally. It may claim once in one country, with no repeat claim in another country or region. A group may not claim again through a different brand.

一个品牌或一个集团全球仅可享受一次样机设备抵扣。在同一国家只有一次机会，不得再跨国家或地区重复申请；同一集团不得使用不同品牌重复申请。

The first order is identified by the applicant’s first contract and first payment. The policy order date is the date the deposit is actually received.

首单按该申请主体的第一次合同及第一次付款识别。政策下单日以定金实际到账日为准。

2 Program window and commencement 参加期间与启用时间

The sample-order participation window runs from 1 September 2026 through 31 December 2026. The sample order date is the actual receipt date of that sample order's deposit.

样机订单参加期间为 2026 年 9 月 1 日至 2026 年 12 月 31 日。样机下单日以该样机订单定金实际到账日为准。

The policy will commence at 00:00 Hong Kong Time (HKT, UTC+8) on 11 November 2026. This is separate from the sample-order participation window. This policy will commence at that time.

政策将于以下时间生效／启用：香港时间（HKT，UTC+8）2026 年 11 月 11 日 00:00，与样机订单参加期间分别适用。本政策将于该时点启用。

3 Credit calculation and limit 抵扣计算及上限

Credit equals ONE equipment unit, not the whole first order. Calculate the equipment value as follows, then apply the payable-balance limit below.

抵扣仅等于一台设备款，不是首单全部金额。按下表计算设备价值，再适用下述应付尾款上限。

First order 首单情况	Value of ONE equipment unit 一台设备价值
Single unit 单台设备	That unit's equipment purchase price 该台设备购买金额
Multiple units 多台设备	First-order total equipment value ÷ equipment-unit count 首单总设备款 ÷ 设备数量
Full 40HQ 完整 40HQ	First container order's equipment value ÷ equipment-unit count 首单整柜设备款 ÷ 设备数量

Credit cannot exceed the subsequent qualifying order's payable balance. If the first order itself is a full 40HQ and qualifies for same-order credit, credit cannot exceed that order's payable balance. It creates no negative balance, refund, cash value or carry-over.

抵扣不得超过后续合格订单应付尾款；首单本身为完整 40HQ 并符合同单抵扣条件时，抵扣不得超过该单应付尾款。不产生负尾款、退款、现金价值或结转。

Credit is an equipment-price deduction, not a cash refund or a free sample. The quotation or PI must itemize equipment value and other charges separately from the total order price; their allocation must not be inferred from the total.

抵扣为设备款减扣，不作现金退款或免费样机。报价／PI 须分别列明设备购买金额、其他费用及订单总价，不得从总价倒推分配。

4 Excluded charges 不抵扣费用

The following charges are excluded from eligible equipment value and are not credited.

以下费用不计入可抵扣设备款，不予抵扣。

Excluded charges	不抵扣费用
Sample or LCL surcharges	样机或拼箱附加费
Packaging and packing upgrades	包装及包装升级
Freight, insurance, customs clearance, duties and taxes	运输、保险、清关、关税及税费
Custom engineering, upgrades, installation and separately charged services	定制工程、升级、安装及另行收费的服务

5 Qualifying full containers 合格整柜

Qualifying containers are one or more full 40HQ containers for one customer (one paying entity). Multi-customer consolidation is ineligible.

合格整柜为单一客户（单一付款主体）的一个或多个完整 40HQ，多客户拼柜不符合资格。

6 First order full 40HQ credit 首单完整 40HQ 抵扣

If the first order itself is a full 40HQ, credit may be applied to that same order’s balance before shipment. There is no need to wait for arrival or proof of delivery (POD), and the 180-day period in Section 7 does not apply to this route. The single-customer, single-paying-entity requirement and all other applicable eligibility conditions still apply.

首单本身为完整 40HQ 时，可在同一单发货前尾款中抵扣，无需等待到货或送达证明（POD），也不适用第 7 节的 180 天期限。仍须满足单一客户（单一付款主体）及其他适用资格条件。

Participation, equipment value and the credit calculation must be stated in the formal quotation or PI.

正式报价或 PI 须列明参与计划、设备款及抵扣算法。

7 Subsequent full container credit 后续整柜抵扣

For a first order that is not a full 40HQ, credit is applied against a subsequent qualifying container order's balance, subject to the following timing requirements.

首单不属于完整 40HQ 时，抵扣适用于后续合格整柜订单尾款，并须满足下列期限要求。

Delivery to the PI address 送达 PI 指定地址

The Sample Arrival Date is actual delivery to the final receiving address specified in the sample PI, as recorded in the carrier's POD. Arrival at the destination port alone does not count.

样机到货日以承运商 POD 所载、实际送达样机 PI 指定最终收货地址的日期为准；仅到达目的港不算到货。

The 180 day period 180 天期限

The day after actual delivery recorded in the carrier's POD is Day 1 of the 180-day period. The deposit for the subsequent qualifying full-container order must actually be received within this period.

承运商 POD 所载实际到货日期的次日为第 1 天，共 180 天。

后续合格整柜订单定金须在此期间内实际到账。

The cutoff is 23:59 local time at the PI-specified final receiving location on Day 180. The qualifying subsequent order deposit must actually be received by that cutoff. No anti-delay, mandatory-collection, deemed-arrival or deemed-receipt clause applies.

截止时间为第 180 天、PI 指定最终收货地点当地时间 23:59。后续合格订单定金须不迟于该时点实际到账。

不设置防拖延、强制提货、视为到货或视为收货条款。

The subsequent qualifying order date is its actual deposit-receipt date. The sample and subsequent order dates are used for this credit policy; they do not separately define legal contract formation.

后续合格订单下单日以该订单定金实际到账日为准。样机及后续订单的下单日用于本抵扣政策，不另行定义销售合同在法律上何时成立。

8 Quotation and delivery terms 报价及交付条款

The pricing basis is EXW (Incoterms 2020), with the named place stated in the quotation. Other terms, including FOB, CIF or DDP, may be used only where logistics are feasible and KAISTEEL approves them in writing for that order. Australia is never offered DDP.

报价以 EXW（Incoterms 2020）为准，指定地点在报价中列明。FOB、CIF 或 DDP 等其他术语，须物流可行并经 KAISTEEL 对该订单书面批准后采用。澳大利亚一律不提供 DDP。

The approved quotation, PI or contract must state the applicable named place or port and allocate freight, insurance, customs clearance, duties, taxes, importer responsibilities and final-mile delivery.

获批报价、PI 或合同须列明适用指定地点或港口，并明确运输、保险、清关、关税、税费、进口方责任及末端交付的划分。

KAISTEEL LIMITED, Hong Kong, is the brand, B2B sales and contracting entity. Products ship from China; there is no overseas stock or warehouse. Actual configurations follow approved bills of materials (BOMs).

KAISTEEL LIMITED（香港）为品牌、B2B 销售及合同主体。产品从中国发货，无海外库存或仓库。实际配置以获批物料清单（BOM）为准。

9 Payment and application of credit 付款及抵扣应用

“Original price” means the total order price. Payment amounts, proportions and milestones are determined per order in the KAISTEEL-approved quotation, PI or contract.

“原价”即订单总价。付款金额、比例及节点在经 KAISTEEL 批准的逐单报价、PI 或合同中确定。

The agreed deposit must actually be received before production scheduling. Eligible sample credit is deducted from the pre-shipment balance, and the remaining balance must be paid in full before shipment. An order that is not eligible for credit has no sample-credit deduction.

约定定金须在排单生产前实际到账。符合条件的样机抵扣从发货前尾款中减扣，剩余尾款须在发货前付清。不适用抵扣的订单不减样机抵扣款。

10 Warranty and contact 保修及联系

Warranty coverage starts on the shipment date. Warranty coverage and the 180-day sample-credit period are administered separately. This policy does not expand warranty coverage.

保修自发货日期起算。保修与样机 180 天抵扣期限分别管理，本政策不扩大保修范围。

Warranty claims contact: KAISTEEL Warranty Team, sales@kaisteelkitchen.com.

保修索赔联系：KAISTEEL Warranty Team，sales@kaisteelkitchen.com。
