MOVABLE OUTDOOR SOCIAL KITCHEN

KAISTEEL Product and Procurement Guide
KAISTEEL 产品及采购指南

KS-01-C | Version 1.1 | 8 November 2026

Customer edition. English appears first and prevails. Policy commences on 11 November 2026 at 00:00 Hong Kong Time (HKT, UTC+8).
客户版。英文在前，以英文为准。政策将于以下时间启用：2026 年 11 月 11 日香港时间（HKT，UTC+8）00:00。

Use this guide to choose a supply scope, prepare a quotation request and understand ordering, sample credit and limited warranty. Your approved quotation, pro forma invoice (PI), bill of materials (BOM), drawings and applicable terms record the actual order.
本指南帮助您选择供货范围、准备询价，并了解订购、样机抵扣及有限保修。实际订单以获批报价、形式发票（PI）、物料清单（BOM）、图纸及适用条款为准。

1 KAISTEEL and manufacturing KAISTEEL 与制造

KAISTEEL LIMITED, Hong Kong, is the brand, B2B sales and contracting entity. KAISTEEL coordinates technical requirements, quality control, documentation and after-sales communication. Products ship from China. KAISTEEL has no overseas inventory or warehouses.
KAISTEEL LIMITED（香港）为品牌、B2B 销售及合同主体，协调技术要求、质量控制、文件及售后沟通。产品从中国发货，无海外库存或仓库。

KAISTEEL collaborates with independent manufacturing partners in mainland China, integrating flexible manufacturing capabilities under a unified product design approach while coordinating production and quality-control requirements.
KAISTEEL 与中国大陆的独立制造合作方开展合作，整合灵活的制造能力，采用统一的产品设计标准，并协调生产及质量控制要求。

Products are manufactured according to project-specific technical specifications and KAISTEEL's established quality-control requirements. Final product configurations are reviewed and approved before production begins.
产品根据项目技术规格及 KAISTEEL 制定的质量控制要求进行生产，最终配置在投产前完成审核与确认。

Relevant manufacturing-partner details may be provided during due diligence according to the actual order, disclosure authorization and confidentiality requirements. Disclosure is not automatic.
相关制造合作方资料可在尽职调查阶段，根据实际订单、披露授权及保密要求提供；不承诺自动披露。

2 Product range and supply scope 产品系列与供货范围

The Movable Outdoor Social Kitchen range has fixed standard widths: PRO 2300 mm and MAX 2900 mm. Other sizes available as CUSTOM. Name every other width CUSTOM followed by its width in mm, for example CUSTOM 3500, with project-specific pricing. Powered opening and closing arrangements are confirmed by configuration.

Movable Outdoor Social Kitchen（可移动户外社交厨房）的固定标准宽度为 PRO 2300 mm 和 MAX 2900 mm。其他尺寸一律称为 CUSTOM，并在名称后注明宽度（mm），例如 CUSTOM 3500，按项目单独报价。电动开启及关闭方案按配置确认。

Supply option 供货配置	Included scope and boundary 包含范围与边界
System Shell 系统外壳	Main structure, interior and exterior finishes, powered lifting/opening mechanisms, lighting and control systems. Excludes internal cabinetry, worktops, equipment and appliances. 主体结构、内外饰面、电动升降及开合设备、灯光与控制系统；不含内部柜体、台面、设备及电器。
Appliance-Ready 电器预留配置	Shell plus internal cabinetry, doors, worktops, sink, faucet and shelving, with interfaces reserved for specified appliance models. Appliances are not automatically included. Shell 加内部柜体、门板、台面、水槽、龙头、置物架，并按指定电器型号预留接口；不自动包含电器。
Full Package 完整配置	Appliance-Ready plus agreed internal appliances and equipment. Exact models, factory integration and destination applicability are confirmed in the approved BOM and PI. Appliance-Ready 加约定的内部电器及设备；具体型号、工厂集成与目的地适用范围在获批 BOM 及 PI 中确认。

Project specification and compliance 项目规格与合规

The approved project BOM, drawings and PI determine materials, mechanisms, dimensions, quantities, packaging and lead times. Material grades and component locations must be stated accurately: a SUS304/SUS316 worktop or sink does not make the entire product stainless steel. Aluminium and galvanized steel retain their actual material descriptions.

实际材料、机构、尺寸、货量、包装及交期以获批项目 BOM、图纸及 PI 为准。材料牌号及使用部位须准确列明：SUS304／SUS316 台面或水槽不代表整套产品为不锈钢；铝材及镀锌钢须保留实际材料描述。

Before production, confirm and approve appliance models, openings and interfaces, electricity and voltage, gas type, ventilation, water supply and drainage, and relevant destination-market compliance evidence. Appliance certificates do not certify the complete kitchen system. Whole-system UL, CSA, CE or SAA certification, delivery dates and loading quantities require applicable approved evidence.

投产前须确认并批准电器型号、开孔与接口、供电及电压、燃气类型、通风、给排水及相关目的地合规证据。单个电器的证书不代表整套厨房系统获证。整套系统 UL、CSA、CE 或 SAA 认证、交付日期及装柜数量须有适用批准证据支持。

Site assembly, electrical, gas and water connections and local approvals require appropriately qualified local professionals.
现场组装、电气、燃气、给排水连接及当地审批须由适当合格的当地专业人员处理。

3 Quotation and payment 报价与付款

Information for your quotation request 询价所需资料

Provide the purchasing and paying entities, company registration details, address and authorized signatory; model, supply option and quantities; destination and final receiving address; site layout and interfaces; appliance choices; and required delivery arrangements. Identify any requested custom configuration, installation or other separately priced service.
请提供采购及付款主体、公司登记资料、地址及授权签署人；型号、供货配置及数量；目的地及最终收货地址；现场布局与接口；电器选择；以及交付要求。请列明所需定制配置、安装或其他另行报价服务。

Your quotation and PI should identify the approved BOM and drawing references, equipment value and other charges, currency and total, payment stages, any sample-credit calculation, delivery term and named place or port, packaging, schedule, validity and applicable warranty and policy references. Unverified project details must be confirmed before production.
报价及 PI 应列明获批 BOM 与图纸编号、设备款及其他费用、币种与总价、付款节点、适用样机抵扣算法、贸易术语及指定地点或港口、包装、交期、有效期，以及适用保修和政策。未核验的项目细节须在投产前确认。

Delivery terms and responsibilities 交付条款与责任

The pricing basis is EXW (Incoterms 2020), with the named place stated in the quotation. Other terms, including FOB, CIF or DDP, may be used only where logistics are feasible and KAISTEEL approves them in writing for that order. Australia is never offered DDP.
报价以 EXW（Incoterms 2020）为准，指定地点在报价中列明。FOB、CIF 或 DDP 等其他术语，仅在物流可行且 KAISTEEL 对该订单书面批准后采用。澳大利亚一律不提供 DDP。

The approved quotation, PI or contract states the named place or port and allocates freight, insurance, customs clearance, duties, taxes, importer responsibilities and final-mile delivery. Unloading, installation, utility connections and site work are not automatically included. Any separately agreed service must specify its scope, price and responsible party. Written quotation validity and applicable delivery terms govern.
获批报价、PI 或合同须列明指定地点或港口，并划分运输、保险、清关、关税、税费、进口方责任及末端交付。卸货、安装、设施接驳及现场施工不自动包含。另行约定的服务须明确范围、费用及责任方；报价有效期与交付义务以书面报价和适用条款为准。

Order specific payment terms 逐单付款条款

Payment amounts, proportions and milestones are determined for each order in the KAISTEEL-approved quotation, PI or contract. The agreed deposit must actually be received before production scheduling. Eligible sample credit is deducted from the pre-shipment balance, and the remaining balance must be paid in full before shipment. Orders without eligible credit have no sample-credit deduction.
付款金额、比例及节点在经 KAISTEEL 批准的逐单报价、PI 或合同中确定。约定定金须在排单生产前实际到账。符合条件的样机抵扣从发货前尾款中减扣，剩余尾款须在发货前付清；不适用抵扣的订单不减样机抵扣款。

“Original price” means the total order price. The total order price, equipment purchase value and other charges are itemized separately. Equipment value is the sample-credit basis, not automatically the total order price; an equipment and packaging split is not inferred from a package price.
“原价”即订单总价。订单总价、设备购买金额及其他费用须分别列明。样机抵扣基数为设备款，不自动等于订单总价；不得从套餐总价倒推设备与包装分项。

4 Purchase sequence 采购流程

1 Define the project. Confirm the model, supply option, quantities, destination, appliances and site requirements for quotation.
1 明确项目。确认报价所需的型号、供货配置、数量、目的地、电器及现场要求。

2 Confirm the written order. Review the quotation, PI or contract, scope, itemized charges, payment terms and applicable policy references. Obtain the required KAISTEEL approval of the order documents.
2 确认书面订单。核对报价、PI 或合同、供货范围、费用分项、付款条款及适用政策，并取得订单文件所需的 KAISTEEL 批准。

3 Pay the agreed deposit. Actual receipt is required before production scheduling. Final configuration and technical requirements must be approved before production starts, with the BOM, drawings and commercial scope aligned.
3 支付约定定金。定金实际到账后方可排单生产。最终配置及技术要求须在投产前获批，并保持 BOM、图纸与商业供货范围一致。

4 Complete shipment arrangements. The delivered configuration, quality control, packing, serial numbers, shipment documents and logistics responsibilities are checked against the order. Apply eligible credit and pay the remaining balance before shipment.
4 完成发运安排。按订单核对交付配置、质量控制、包装、序列号、发运文件及物流责任；发货前计入适用抵扣并付清剩余尾款。

5 Retain handover records. Keep the shipment date, product-specific warranty record, serial numbers and purchase documents. Use qualified local professionals for site work and register within 60 days after installation. For subsequent-container credit, retain the carrier’s proof of delivery (POD) to the sample PI’s final address.
5 保留交接记录。保存发货日期、产品专属保修记录、序列号及购买文件。现场作业由合格当地专业人员完成，安装后 60 天内注册。采用后续整柜抵扣时，保存承运商送达样机 PI 最终地址的送达证明（POD）。

Dealer status, territories, marketing permissions, lead protection and exclusivity are not automatic. Any such rights require a separate written agreement.
经销身份、区域权利、营销权限、线索保护及独家权不自动授予，须另行书面协议。

5 Global sample credit overview 全球样机抵扣概览

The separate KS-02-C Global Sample Equipment Credit Policy provides the customer policy. Sample PIs and credit are issued only to registered companies worldwide, without model, equipment-value or intended-use restrictions. A brand or group may receive credit only once worldwide, with no repeat claim across countries, regions or different brands within the same group.
具体客户政策见独立的 KS-02-C《全球样机设备款抵扣政策》。样机 PI 及抵扣仅向全球注册公司签发，不设型号、设备款金额或用途限制。一个品牌或一个集团全球仅可享受一次，不得跨国家、地区或通过同一集团下的不同品牌重复申请。

The sample-order participation window is 1 September through 31 December 2026. Identify the first order by the applicant's first contract and first payment. For both the sample and subsequent qualifying orders, the policy order date is actual deposit receipt, not a payment instruction or remittance advice. These dates do not separately define legal contract formation.
样机订单参与窗口为 2026 年 9 月 1 日至 12 月 31 日。首单按申请主体的第一次合同、第一次付款识别。样机及后续合格订单的政策下单日均为各自定金实际到账日，付款指令或汇款凭证不能替代到账；这些日期不另行定义法律上的合同成立时间。

Sample credit calculation and timing 样机抵扣计算与时点

Calculated credit represents ONE equipment unit, not the whole first order. For a single-unit first order, use that unit's equipment purchase price. For a multi-unit first order, use first-order total equipment value divided by equipment-unit count. For a full-40HQ first order, use that first container order's equipment value divided by its equipment-unit count.
抵扣计算额仅代表一台设备，不是首单全部金额。首单单台，取该台设备购买金额；首单多台，取首单总设备款除以设备数量；首单完整 40HQ，取该首单整柜设备款除以设备数量。

A qualifying order comprises one or more complete 40HQ containers for one customer with one paying entity. Multi-customer consolidated containers do not qualify.
合格订单为单一客户、单一付款主体的一个或多个完整 40HQ。多客户拼柜不合格。

When the first order is not a full 40HQ 首单非完整 40HQ

The sample must actually reach the final receiving address in its PI, evidenced by the carrier's POD. Arrival at the destination port alone does not count. The next day is Day 1 of the 180-day period. The subsequent qualifying container order's deposit must actually be received by 23:59 local time at that PI-specified receiving location on Day 180. Credit is deducted from that subsequent order's pre-shipment balance.
样机须实际送达其 PI 指定的最终收货地址，以承运商 POD 证明实际到货；仅到达目的港不算到货。到货次日为第 1 天，期限共 180 天。后续合格整柜订单定金须不迟于第 180 天、该 PI 指定最终收货地点当地时间 23:59 实际到账；抵扣计入该后续订单发货前尾款。

No anti-delay, mandatory-collection, deemed-arrival or deemed-receipt clause applies.
不设置防拖延、强制提货、视为到货或视为收货条款。

When the first order is a full 40HQ 首单即完整 40HQ

If the first order itself is a complete 40HQ, the calculated credit may be deducted from that same order's pre-shipment balance without waiting for arrival, POD or the 180-day route. Single-customer, single-paying-entity and all other applicable eligibility conditions still apply.
首单本身即完整 40HQ 时，抵扣计算额可用于同一订单发货前尾款，无需等待到货、POD 或 180 天路径；仍须符合单一客户、单一付款主体及其他适用资格要求。

Balance cap and excluded charges 尾款上限与排除费用

Participation, equipment value and calculation must appear in the formal quotation or PI. Actual credit cannot exceed the applicable payable balance: the subsequent qualifying order's balance, or that first full-40HQ order's balance for same-order credit. It is an equipment-price deduction, not a free sample or cash refund, and creates no negative balance, refund, cash value or carry-over.
正式报价或 PI 须列明参与计划、设备款及算法。实际抵扣以适用应付尾款为限，即后续合格订单尾款，或首单完整 40HQ 同单抵扣时的该单尾款。抵扣为设备款减扣，不是免费样机或现金退款，不产生负尾款、退款、现金价值或结转。

Excluded from credit: sample or less-than-container-load (LCL) surcharges; packaging and packing upgrades; freight, insurance, customs clearance, duties and taxes; custom engineering, upgrades, installation and separately charged services. Equipment value and these charges must be itemized separately.
不抵扣费用：样机或拼箱（LCL）附加费；包装及包装升级；运输、保险、清关、关税及税费；定制工程、升级、安装及另行收费服务。设备款与上述费用须分别列明。

6 Limited warranty scope 有限保修范围

KAISTEEL LIMITED (Hong Kong) is the warrantor. Coverage applies only to eligible KAISTEEL-supplied components and ordered materials identified in product and order records. Founders, personnel, designers, suppliers, manufacturing partners and third parties do not separately warrant the system unless they expressly agree in writing.
保修主体为 KAISTEEL LIMITED（香港）。范围仅限产品及订单记录中列明、符合条件的 KAISTEEL 供货部件及已订材料。创始人、人员、设计方、供应商、制造合作方及第三方不另行对整套系统提供保修，除非其明确书面同意。

Warranty starts on the shipment date. These maximum periods apply to eligible residential and commercial uses, subject to the ordered specification, scope, conditions, exclusions and applicable law.
保修从发货日期起算。下列最长期限适用于符合条件的住宅及商业用途，并受已订规格、范围、条件、排除事项及适用法律约束。

Coverage and maximum term 类别及最长期限	Eligible components and defects 符合条件的部件与缺陷
Primary structures Up to 15 years 主要结构 最长 15 年	Material/workmanship defects in eligible solid SUS304/SUS316 worktops, 304/316 stainless-steel cabinet bodies/doors, and structural steel frames, only if included in the ordered specification. 符合条件的实心 SUS304／SUS316 台面、304／316 不锈钢柜体／门及结构钢框架的材料或工艺缺陷，仅限已订规格包含的部件。
Surface and finish Up to 5 years 表面及饰面 最长 5 年	Eligible factory-applied powder-coat or supplied decorative-panel finish defects, subject to normal-weathering and corrosion exclusions. 符合条件的工厂粉末涂层或所供装饰板饰面缺陷，受正常风化及腐蚀排除条件约束。
Specified functional components 1 year 指定功能部件 1 年	KAISTEEL-supplied electric actuators, canopy motors, switches, controllers and integrated LED lighting identified in the BOM. BOM 列明的 KAISTEEL 所供电动推杆、顶篷电机、开关、控制器及集成 LED 灯。
Third-party appliances Manufacturer terms 第三方电器 适用厂家条款	Grills, refrigerators, TVs, hobs and other third-party appliances follow only the relevant manufacturer’s applicable warranty. 烤炉、冰箱、电视、灶具及其他第三方电器仅适用相关厂家的适用保修。

Aluminium cabinetry, panels and frames are not automatically covered by the 15-year tier. Cabinet hardware is not automatically covered by the one-year functional-component tier. The approved BOM and product-specific warranty schedule determine eligibility. This is not unconditional whole-product 15-year coverage.
铝柜体、铝板及铝框架不自动纳入 15 年范围；柜体五金不自动纳入 1 年功能部件范围。资格由获批 BOM 及产品专属保修明细确定，并非整机无条件 15 年保修。

The product-specific warranty governs contractual coverage and supersedes inconsistent general marketing descriptions unless a later KAISTEEL-signed written agreement expressly states otherwise. Sample credit, prices and shipping arrangements do not expand warranty coverage.
产品专属保修管理合同保修范围，并替代不一致的一般营销描述，除非 KAISTEEL 后续签署的书面协议明确另有规定。样机抵扣、价格及运输安排不扩大保修范围。

7 Care registration and claims 维护注册与索赔

Care and qualified installation 维护与合格安装

Owners must clean stainless-steel surfaces regularly, normally at least every two weeks and more often in coastal, salty or polluted conditions. Remove standing water and food or chemical residues promptly. Use suitable non-chloride, non-abrasive cleaners, and inspect or lubricate hinges, actuators and canopy mechanisms as instructed. Assembly, structural modifications, electrical, gas and water connections and site work must be performed by appropriately qualified local professionals.

所有者须定期清洁不锈钢表面，通常至少每两周一次，沿海、盐雾或污染环境增加频次。及时清除积水及食物、化学品残留，使用适当的无氯、非研磨清洁剂，并按随附说明检查或润滑铰链、推杆及顶篷机构。组装、结构改动、电气、燃气、给排水连接及现场作业须由适当合格的当地专业人员完成。

Registration after installation 安装后注册

The original purchaser or distributor should register within 60 days after installation, providing the serial number, purchase evidence and installation date to sales@kaisteelkitchen.com or the designated registration channel. The shipment-date warranty start does not change this period. Where lawful, registration may be required for an additional contractual extension, but does not remove mandatory non-excludable rights. Reasonable alternative proof may be requested if records are missing.

原购买者或分销商应在安装后 60 天内，通过 sales@kaisteelkitchen.com 或指定渠道注册，提供序列号、购买凭证及安装日期。发货日起算不改变注册期限。在法律允许时，注册可作为额外合同延保的条件，但不剥夺强制性、不可排除的权利。记录缺失时，可要求合理替代证明。

Contractual exclusions 合同保修排除

To the maximum extent permitted by law, coverage excludes damage or failure caused by improper, non-compliant or non-professional installation; unauthorized modification or repair; unsuitable site conditions; chlorides, acids, de-icing salts, unapproved cleaners or other chemical exposure; inadequate drainage; misuse, neglect or missing maintenance.

在法律允许的最大范围内，排除因不当、不合规或非专业安装，未经授权的改装或维修，不适当现场条件，氯化物、酸、除冰盐、未经批准清洁剂或其他化学品，不良排水，误用、疏忽或缺少维护造成的损坏或故障。

Exclusions also cover storms, flood, fire, seismic events, accidents, external impact and force majeure; normal weathering, color changes, minor pitting, fading, cosmetic oxidation not impairing structural integrity, scratches, handling marks and other non-functional appearance changes. Third-party appliances or components follow only their manufacturers' applicable terms.

亦排除风暴、洪水、火灾、地震、事故、外部撞击及不可抗力；正常风化、变色、轻微点蚀、褪色、不影响结构完整性的表面氧化、划痕、搬运痕迹及其他非功能性外观变化。第三方电器或部件仅按其厂家适用条款处理。

How to make a claim 如何提交索赔

Send the certificate reference, serial number, proof of purchase, installation information, defect description, photos/video and contact details to KAISTEEL Warranty Team, sales@kaisteelkitchen.com. KAISTEEL aims to acknowledge a complete claim within five business days; this is a target, not a guarantee. Further evidence, service or maintenance records, installation drawings, reasonable access or inspection may be needed before coverage, an approved remedy and estimated handling timetable are communicated.

将保修凭证编号、序列号、购买凭证、安装信息、缺陷描述、照片／视频及联系方式发送至 KAISTEEL Warranty Team，sales@kaisteelkitchen.com。KAISTEEL 目标为完整索赔提交后五个工作日内确认收到，此为目标而非保证。告知保修范围认定、核准救济及预计处理时间前，可能需要补充证据、维修或维护记录、安装图纸，以及合理访问或检查。

8 Warranty remedies and legal terms 保修救济与法律条款

Remedies and cost allocation 救济与费用分配

For a verified covered defect, KAISTEEL will, at its discretion and subject to applicable law, repair or replace the defective covered component or supply appropriate replacement parts. Where practical, parts are supplied without a separate parts charge at an agreed China dispatch point.

对核实属于保修范围的缺陷，KAISTEEL 将依其选择并遵守适用法律，维修或更换受保缺陷部件，或提供适当备件。在可行情况下，备件在约定的中国发货点供应，不另收备件费。

Destination freight, insurance, duties, taxes, clearance, removal, reinstallation, field labor and local contractor services are generally the claimant’s or dealer’s responsibility unless expressly agreed otherwise in writing or legally required.

目的地运费、保险、关税、税费、清关、拆卸、重装、现场人工及当地承包商服务通常由索赔方或经销商承担，书面明确另约或法律要求除外。

If repair or replacement cannot reasonably be provided, an alternative remedy may be agreed in writing, subject to mandatory rights. KAISTEEL provides remote technical coordination, parts identification and replacement-part support; it does not promise local on-site installation or field technicians.

无法合理提供维修或更换时，可在保留强制性权利的前提下另行书面约定救济。KAISTEEL 提供远程技术协调、备件识别及替换支持，不承诺当地现场安装或技师服务。

Liability and statutory rights 责任与法定权利

To the maximum extent permitted by law, contractual liability is limited to repair or replacement of the covered defective component or, if KAISTEEL elects and the law permits, a refund no greater than the original amount paid for that component. Indirect, consequential, incidental, punitive or special loss, including loss of use, revenue/profit, project delay and other-property damage, is excluded only where lawfully excludable.

在法律允许的最大范围内，合同责任限于维修或更换受保缺陷部件，或由 KAISTEEL 选择且法律允许时，退还不超过该部件原实际支付金额的款项。间接、后果性、附带、惩罚性或特殊损失，包括使用损失、收入／利润损失、项目延误及其他财产损害，仅在法律允许排除时予以排除。

Mandatory statutory warranties, guarantees, consumer protections and non-excludable remedies remain unaffected, including those arising despite B2B distribution. Warranty remedies are separate from sample credit; the no-cash and no-refund rules for sample credit do not limit mandatory warranty remedies.

强制性法定保修、保证、消费者保护及不可排除的救济不受影响，包括虽经 B2B 分销仍适用的权利。保修救济与样机抵扣分别管理；样机抵扣不兑现、不退款的规则不限制强制性保修救济。

Transfer and governing law 转让与适用法律

The original purchaser may transfer the contractual warranty once with the product only upon KAISTEEL's written confirmation and serial-number/purchase-record traceability. Hong Kong SAR law governs without overriding mandatory destination-market rules. Dealers remain responsible for compliant local sales disclosures, resale warranties, installation practices and statutory after-sales obligations.

原购买者仅可在 KAISTEEL 书面确认且序列号、购买记录可追溯时，随产品转让一次合同保修。适用香港特别行政区法律，但不排除目的地强制法规。经销商仍负责合规的当地销售披露、转售保修、安装实施及法定售后义务。
